Local Print Agent Strategy

✏

structure:

```
Script
  "media-col": {
    "media-top-margin": 0,
    "media-bottom-margin": 0,
    "media-left-margin": 0,
    "media-right-margin": 0
  }
```

How to verify if the printer is refusing?

If it prints with a border despite the code, run you `identify.js` script from the previous step and loo for:

1. `sides-supported`: Ensure `two-sided-long-edge` listed.
